

Do You Have Wind at you place?

How often do you see tree leaves wavering from a small breeze near your house?

Maybe the trees around your house act as wind breakers!

They are bent by too much wind over the years and grow leaves only on the side facing the hill!

Then you have been sitting on a **POWER source which could change your life**

That small wind breeze is enough energy to light up your home!

Light up your home using our affordable Wind Generators. We have a wide range of sets which can fit your energy needs for the home.

Save money by investing in 24 hours Renewable Energy.

Guaranteed:

Our 1 year guarantee on parts only covers for damages by natural forces like lightening, wind storms etc. and not customer tempering with the equipment.

**No Fuel Costs,
No Electricity Bills
No maneno!**

The WindCruiser will not give you trouble in maintenance since its Direct drive, gearless and has no brushes.

It utilizes the slightest breeze to generate power using its state-of-the-art superlite hollow fiberglass propeller blades

We build our generators using recycled materials.

**KEEP YOUR ENVIRONMENT CLEAN BY USING
CLEAN ENERGY**

How you can benefit from Your Wind Cruiser

With our WindCruiser, you can run your AC equipment like; Lights, TV, Video, Radio or HI-FI System, Shaving machine, Drilling machines, Angle Grinders and other power tools, Electric Water pumps, Computers, Printers, Scanners, Battery Chargers, Fridges and other home appliances e.t.c

Our machines Range from 300 Watts and above. Because it is us who construct them, we can make one specifically for YOU! Do you want power for a school, clinic, village market or several homes? come talk to us at Craftskills.

DOMESTIC KITS

Lighting and Entertainment

Wind Cruiser CS03TDR 12-24 volts series

- **Peak Power output: 150 watts**
- 5 DC Bulbs, Radio B/W TV
- 50-100AH Battery
- Power Cable
- Fibreglass propeller
- Charge Controller
- Ask for a quotation windcruiser@craftskills.biz

Wind Cruiser CS09TDR 12-24 volts series

- **Peak Power output: 300 watts**
- 10 DC Bulbs, Radio, Colour TV (on Inverter)
- 100AH Battery
- Power Cable, Change over switch for 2 battery banks
- Fibreglass propeller
- Charge Controller
- Ask for a quotation windcruiser@craftskills.biz

Wind Cruiser CS12TDR 12-24 volts series

- **Peak Power output: 700 watts**
- 15 DC Bulbs, Radio, Colour TV, Computer (on Inverter)
- 2 x 100 AH Battery
- Power Cable, Change over switch for 2 battery banks
- Fibreglass propeller
- Charge Controller
- Ask for a quotation windcruiser@craftskills.biz

Wind Cruiser CS15TDR 12-24 volts series

- **Peak Power output: 1200 watts**
- 25 DC Bulbs, Radio, Colour TV, Computer, Power Tools, Small Fridge (on Inverter)
- 4 x 100AH Battery
- Change over switch for 2 battery banks
- Power Cable
- Fibreglass propeller
- Charge Controller
- Ask for a quotation windcruiser@craftskills.biz

Wind Cruiser CS18TDR 12-24 volts series

- **Peak Power output: 1800 watts**
- 25 DC Bulbs, Radio, Colour TV, Computer, Power Tools, Small Fridge (on Inverter)
- 4 x 100AH Battery
- Change over switch for 2 battery banks
- Power Cable
- Fibreglass propeller
- Price of Wind Cruiser
- Charge Controller
- Ask for a quotation windcruiser@craftskills.biz

Bigger units are available for AC installations in other brochures

Inverters

- Ask for Prices
- Our Inverters are state-of-the-art technology involving years of research.
- They have load sensing capability, short-circuit protection, very comprehensive display panel showing current and voltages etc.

Lattice Towers

- 30 feet Lattice tower LG metal
- 30 feet Lattice tower HG metal
- 40 feet Lattice tower LG metal
- 40 feet Lattice tower HG metal
- 60 feet Lattice tower HG metal
- 80 feet HG Lattice Tower
- Ask for a quotation windcruiser@craftskills.biz

Remember The higher you fly the generator the better the performance. Obstacles like trees rocks and buildings will break the power of wind.

Visit our website www.craftskills.biz regularly for updates

Advantages of the Wind Cruiser System

- Affordable price
- Low maintenance
- Durability
- Compatibility with Solar, Hydro etc.
- Single phase, 3 phase and multiphase for better battery charging
- Pure Sine wave power, Power control Systems with GSM capability for data collection, fault reporting and monitoring
- Operates in low wind situations
- Standalone or Backup for large scale power installations

Our turbines are ideal for:

- Rural homes (community and individual power -- lighting, security, water pumping, entertainment etc)
- Market places (lighting, security, cold rooms, welding, shops, salons, battery charging, repair etc)
- Schools (lighting, security, water pumping, entertainment, labs, staff quarters etc)
- Industries (lighting, office equipment, machinery etc)
- Rural Health Facilities (mortuary facilities, lighting, equipment, refrigeration etc)
- Hotels and Lodges (lighting, cold rooms, security, entertainment communication, equipment etc)

Some of the sites using the WindCruiser

Foxes Safari Lodges, Tanzania

Do you own a lodge, tented camp, hotel in deep remote place. Are you spending too much on fossil fuels. Come to us we have your solution. *Big wind power turbines*

Miaani Machakos

Near the St Cecilia Catholic Church flies a WindCruiser & solar hybrid power system serving lights, water pump for underground tank, TV, mobile phones etc.

Turbine destined for Morogoro Tanzania

Kutulo-Mandera WindCruiser serving several homes with power.
